

Building A Sustainable Future
And Creating Jobs

THE SOLAR + ENERGY STORAGE EXPERTS

Growing a workforce to meet industry demands

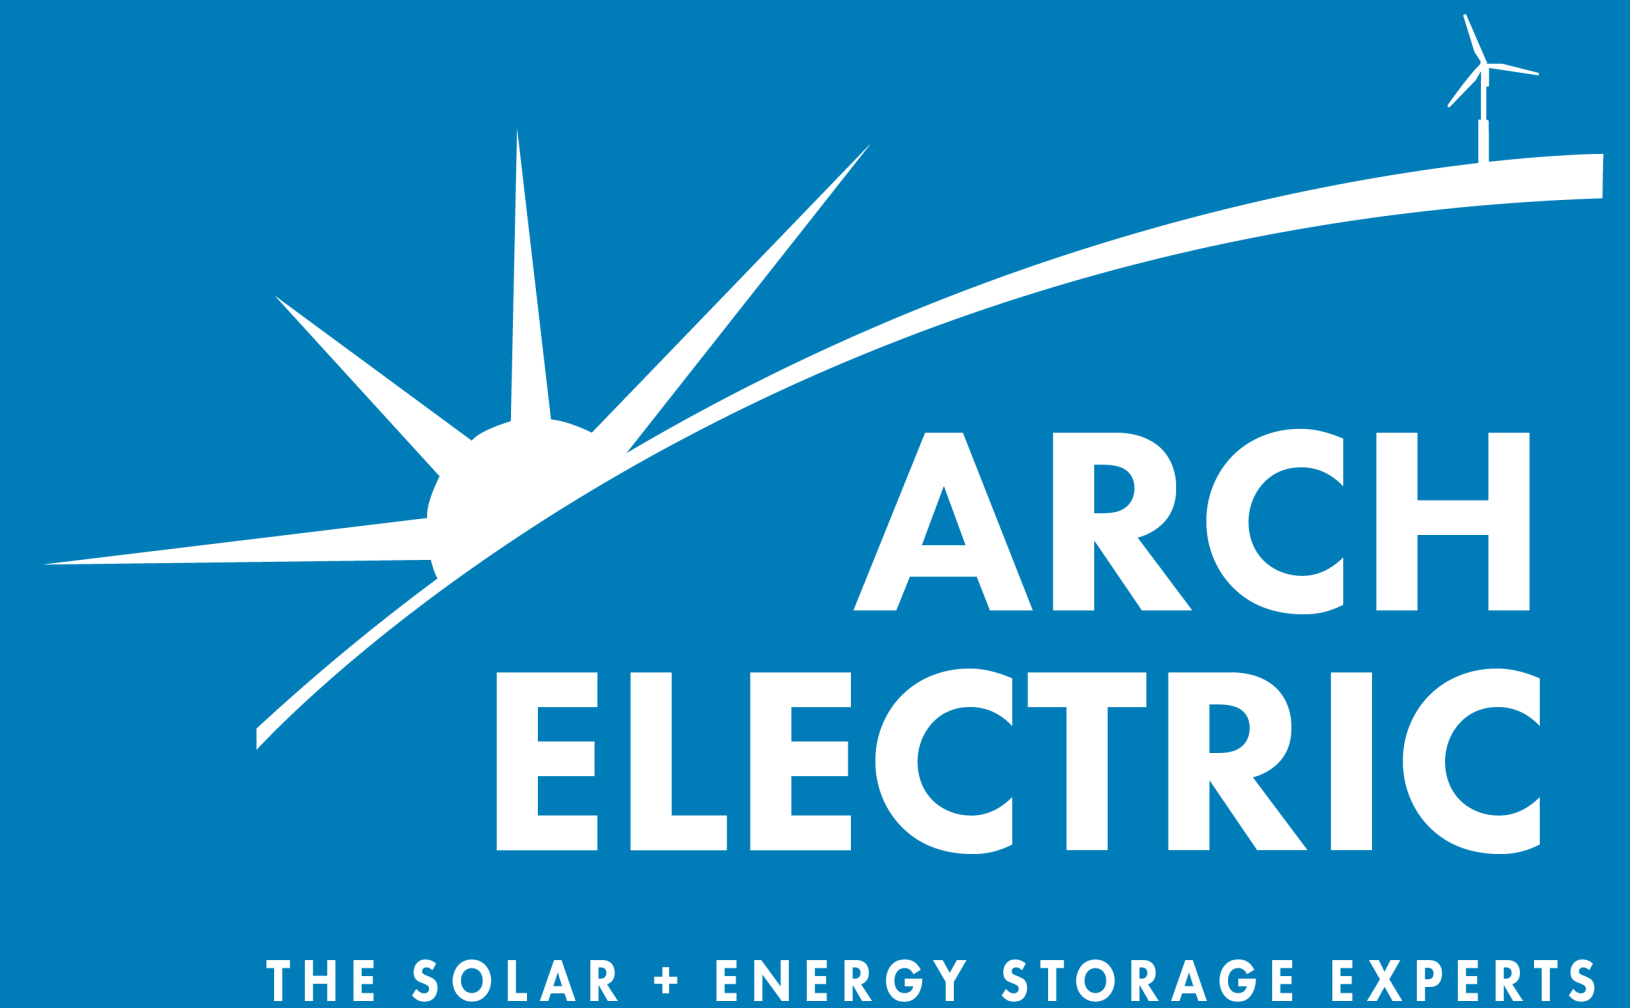

The Energy + Storage Experts

Since our humble beginning, we've become leaders in the solar industry and are paving the way for renewables in Wisconsin. We are firm believers in handshake ethics and have a diverse staff of trusted, licensed engineers & electricians, NABCEP certified solar experts with over 100 years of combined experience. Our company leaders are active instructors, inspectors, and consultants to many of the leading energy groups, both locally and nationally.

We are a vertically integrated company, meaning we have expertise to handle your investment from initial contact all the way to after install support. When you work with us you don't just get a solar project, you receive a *solar experience*.

~1.6MW 2003-2016
~1.6MW 2017
~1.6MW by 31 March 2018
~9MW 2019
~25MW Estimated in 2020

Vision, Mission & Goals

Mission

Our mission is to educate, inspire, and empower current and future generations to choose a clean sustainable form of energy.

Vision

Our vision is universal access to affordable renewable energy.

Values

1. Creating a safe work environment to ensure that our team members make it home to their family.
2. Respecting each other, the customer, & the environment.
3. Educating communities, municipalities & leaders about renewable energy.
4. Embracing change to pursue growth, learning and technology improvements.
5. Pursuing excellence in our craftsmanship & work ethic.

THANK YOU!
